Scope of services

Construction

The apartment complex is divided into four independent sections that are connected by a shared underground parking lot. Individual buildings form a square layout that encloses the inner park block protected by an external wall. Sections A and B have five to six above-ground floors, sections C and D have eight floors with maisonette apartments on the highest floors. The whole complex contains 103 residential units with final surfaces made of materials in superior quality (Eurowindows, wooden floors) and a private saunas in some of the apartments.
