operation in Central Europe and increased its production capacity in Slovakia. ”

The new factory building for the company Courbis has arisen on a greenfield site as part of the industrial zone in the Slovakian city of Sered'. In the building, polyurethane products will be manufactured for the automotive sector and other areas of industry.

In the first phase of the construction, a factory building was created that has an area of 2,090 m² and includes sections for production and administration as well as technical facilities. All the exterior landscaping, media connections, and transportation routes were included in the project.

In numbers

1 st industrial project in Slovakia	2 090 m ² of built-up area	9 days for supporting structure installation
