

Cubicon Gardens – 1st Phase

“ New three-flat residential buildings with local facilities and a view of Bratislava. ”

The project included the construction of three eight-storey apartment buildings with underground garages in which 122 higher standard residential units are located, along with 4 studios, 2 commercial areas and a kindergarten with a garden. It included complete utilities, new access roads, parking in front of and behind the buildings, retaining walls, walkways, barrier-free access ramps, as well as a new reinforced-concrete fence separating the Bratislava Zoo and the investor's property. Three green gardens were established above the underground garages, each with an area of 500 m², which form a quiet zone between each building. The buildings have a monolithic reinforced concrete supporting structure. The foundation is laid on large-diameter piles. Staircases and balconies are pref...
