

Kimberly Clark, Jaroměř

The manufacturing complex was built in several phases. The main part including a service building, i.e. a steel-reinforced concrete skeleton combined with a brick peripheral jacket, and a four-aisle production hall with atypical steel-frame design, were completed in the first phase of construction. The second phase included construction of a new manufacturing hall, "Caesar", which accommodated two lines for the manufacture of baby diapers, including complete technical base. The manufacturing hall of 6,580 m² is designed as a two-aisle steel structure based on a steel-reinforced concrete monolithic platform supported by piles; it is connected with the existing production hall. All technology is placed on two steel inter-connected platforms. The 7,200 m² storage hall "Brutus" w...

Location

Jaroměř

Investor

Kimberly Clark, a.s.

Construction period

07/1995 – 09/2005

Type of construction

Industrial

Scope of services

**Construction,
Manufacture and
assembly of precast
concrete structure**
