Shared **innovation**

This is a water management project divided into nine parts: a sewerage system and a water supply system were completed in Dobrovice, a sewerage system was completed in certain parts of Mladá Boleslav (Bezděčín, Láskov, Chrást, Čejetice and in Vinecká Street), and the waste water treatment plant (WWTP) was expanded and the sewerage system was completed in Mnichovo Hradiště. In order to supply clean drinking water in Dobrovice, a pipeline was constructed with an overall length of 14,568 metres, 2,782 metres of the water mains were relocated and a reinforced concrete underground reservoir with its three pumps and volume of 1,000 m<sup3 was renovated. The WWTP in Mnichovo Hradiště was completely refurbished and enlarged to a capacity of 12,000 PE. In other parts of the con...
