

# New Headquarters of Mercedes-Benz Trucks

Location

**Prague**

Investor

**Mercedes-Benz Trucks  
Česká republika s.r.o.**

Construction period

**04/2019 – 04/2020**

Type of construction

**Office**

Scope of services

**Construction**

“ 700 m<sup>2</sup> of new office space in the facility of the dealer of premium heavy-duty vehicles. ”

[www.vces.cz](http://www.vces.cz)

Shared **innovation**

A four-story administrative building encompassing office for 80 workers on the 1st and 2nd floors, a sitting area with amenities on the top floor, and technical facilities and a parking lot for 22 personal vehicles on the ground floor. The building is also surrounded by a new display area with surfaces of asphalt (1 900 m<sup>2</sup>) and interlocking concrete pavers (1 200 m<sup>2</sup>). In the future, the office building will be able to grow along with the company's needs. Specifically, the project design also took into account additional increases in capacity. It includes the option of extending the top, set-back story to cover the entire ground plan and constructing one full and one set-back story. It would also be possible to construct another building next door that would be its mirror image....
