Shared **innovation**

The building is comprised of 9 above-ground floors with four commercial units and 105 apartments having floor areas of 35 to 300 m^2.

The apartments located on the top floors have extensive roof terraces, and those on the ground floor have private gardens. There are 155 parking spaces and 105 cellar cubicles in the two underground floors. The building has been executed to high standards where quality and material are concerned. Most of the housing units are accessible directly from the elevator, and the doors dividing the housing unit from the elevator meet tough acoustic requirements.

The building's foundation employs deep large-diameter ...
