VCES Construction Group

Shared innovation

# VCES GROUP

## Construction Partner for Your Projects

We are one of the leading construction companies operating in the Czech Republic and Slovakia.

Since 2006, we have been a part of **Bouygues Construction** – one of the most significant construction groups in the world.

Our company combines the strength of an international group with the knowledge of a local building contractor, capable of handling even the most challenging projects.

Malešice Apartments – 2<sup>nd</sup> Phase

## Certificates and Sustainable Construction

We employ an advanced management system during the construction process in accordance with the international ISO/OHSAS standards, certified by renowned authorities CQS and AFNOR. As of 2006, we have also been registered in the EMAS program.

Our internal standards Safety Act, Green Site Office and Ecosite surpass the legal requirements of the Czech Republic and Slovakia in terms of safety and ecology.

Vodafone Headquarters

## Residential Buildings

It is our goal to meet the expectations of the developers and their clients. We are proactive in anticipating new ways of life and we offer building and technological solutions which turn residential projects into places for better living.

700 apartments  
delivered in 2015

## Water Management Structures

As one of the leading contractors for water management and environmental projects, we help to improve the standard of living and preserve natural resources by reconstructing or building new sewerage and water supply systems, waste water treatment plants and drinking water treatment plants.

Completed contracts:  
CZK 1.13bn in 4 years

Vodafone Headquarters

## Office Buildings

We build sophisticated office spaces which meet the demanding criteria in terms of ergonomics, operational efficiency and environmental friendliness. Intelligent buildings for Vodafone, Komerční banka or Seznam.cz with BREEAM and LEED environmental certificates are a proof of this approach.

5 BREEAM/LEED  
certified projects

## Shopping Centres

The synergy of skills within the international group enables our clients to realize the most ambitious plans – we have the capacity and ability to build commercial facilities of any scale.

Centrum Černý Most:  
208,000 m<sup>2</sup> of floor area

Centrum Černý Most Shopping Mall

ELI Beamlines Laser Centre

## Public Projects

Top science centres, university premises, libraries, schools and hospitals. We create places that shape the daily life as well as educate, help and inspire.

centre honoured  
by MIPIM Award

## Property Development

Under the brand Linkcity we create development projects in residential housing, urban brownfield regeneration, construction of hotels, data centres and logistics/industrial parks. Combining development and construction, we are able to commit to turnkey offer at the early stages of a project with regard to its legal, financial, and technical aspects.

1,100 residential units sold

## Industrial and Logistics Parks

We provide new construction and modernization for production and storage facilities. It is our utmost priority to achieve a high level of quality and meet the time schedule of the project.

80,000 m<sup>2</sup> of new logistic areas in preparation

ABB Production Plant

Plastia Production Plant

## Special Constructions

We are able to offer precast concrete elements and cast-in-place concrete structures as part of a comprehensive solution. A proper combination of our capacities allows us to effectively optimize the construction.

PREFA Division: 1,000 m<sup>3</sup> of precast concrete elements per month
